Dear Hiring Manager,

Thank you for the opportunity to apply for the Engineering Intern role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a detail-oriented college student (Bachelor of Technology in Computer Science) currently attending Sikkim Manipal Institute of Technology. During the course of my academic career, I also managed to accrue nearly 2 months of work experience. I had the privilege of working for Chargeit Technologies in an Angular Software Development Intern role in my free time, where I learned valuable professional skills such as product design and product development cycle. In both my academic and professional life, I have been consistently praised as hard-working by my professors and peers. Whether working on academic, extracurricular, or professional projects, I apply proven critical thinking, problem-solving, and technical skills, which I hope to leverage into the Engineering Intern role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at (900) 751-3905 or via email at developersomik@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Somik Datta
